 Subject: Onsite Rulemaking Announcement - OR CZARA

Robert,

I think that Randy Trox (who heads up OR's OSDS program) has been wanting to do this for a while now. They tried legislation first. When that didn't work, they studied a rule-making. Randy would like it to be statewide, but is piloting this in the 6217 management area. Remember that OR is the subject of a settlement agreement between EPA-NOAA and NWEA (an enviro group) to have an approvable program by late 2013, so this strategy was on OR's schedule. I think it's fair to say that CZARA is making the critical difference as the driver for this rule.

cool
 is this because of pressure from the feds?

Don Waye---10/02/2012 05:49:48 PM---All, I looked over the proposed rules. EPA HQ agrees that the proposed changes will satisfy the OSDS

All,

I looked over the proposed rules. EPA HQ agrees that the proposed changes will satisfy the OSDS inspections condition.

Jayne/Don--

I looked over the proposed rule changes and they look good to me as far as addressing OR's remaining OSDS condition goes. Since EPA is the technical experts, I'll let you have the last say and provide feedback back to Randy.

Hello,

This went out last week.

DEQ is proposing rule changes to Division 018 & 071 and would like your input. The comment period will end October 19th at 5 PM. For information on how you can comment, attend a public hearing, please read the rulemaking announcement.

The rule changes will include some housekeeping and correcting some errors. Substantive rule changes proposed include:

Amend

- Time of transfer septic system inspections with reporting requirements
- Alternative treatment technology product approval process to include annual fees and reporting
- Fee schedule to include compliance recovery fees for violators
- Site evaluation reports to expire ten years from rule adoption or issue date
- Definition of maintenance to allow some system components to be replaced without a permit

Repeal

- ETA systems from the rule and site evaluation confirmations

For more information, please visit DEQ's home page (<http://www.deq.state.or.us/wq/onsite/onsite.htm>) to view the draft rules, announcement, and the proposal.
